

Warp & Weave

Color courage for weavers

Color Editor

Try it: Copy/Paste Colors

Demo videos for desktop computers and an iPad can be found at the bottom of the lesson.

Part One. Upload your Saved WIF

1. Click Upload WIF and choose the .WIF you downloaded in Try It: Change Colors.

Part Two. Copy your stripe sequence

1. Click the Copy /Paste Colors button to activate the feature.
2. Click and drag to select the warp threads in your stripe sequence, then release the mouse button.
3. Use the “slider” of your stripe sequence to move it along the warp thread bar to drop it wherever you like in your warp.
4. Try turning the corner with your “copied “slider” and drop that stripe sequence into the weft

Part Three. Download your WIF

1. Click the Download button, then Download WIF to save your draft.
